EDUCATION

B.Tech, Computer Science & Engineering — Manipal University Jaipur, India *2024 – Present*
CGPA: 7.64 / 10

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript
Frameworks & Libraries: React.js, FastAPI, Node.js, BeautifulSoup, Playwright, HTTPX
Backend & Tools: REST APIs, JWT Authentication, Web Scraping, Browser Automation
Version Control: Git, GitHub
Databases: MySQL, MongoDB, Oracle SQL, PL/SQL
Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Design & Analysis of Algorithms

PROJECTS

- SmartApply** *Python, FastAPI, Playwright, BeautifulSoup, HTTPX*
- Built a scraping pipeline aggregating internships from multiple sources with HTTP validation, deduplication, and retry handling.
 - Designed a weighted skill-matching engine that ranks listings and generates explainable match reasoning per result.
 - Automated form-filling using Playwright with manual submit control; added offline fallback for cover letter generation.
- GPU & Lab Resource Management System** *Python, FastAPI, JWT Auth, MySQL*
- Built a centralized scheduling platform with quota enforcement, conflict detection, and real-time allocation tracking.
 - Implemented JWT-based auth with RBAC (admin, faculty, student) and full audit logging for traceability.
- Car Rental Management System** *C++*
- Designed a role-based system (Manager, Employee, Customer) using OOP principles with booking lifecycle management and inventory tracking.
- Course Registration & Academic Performance System** *MySQL, MongoDB*
- Built a normalized schema with SQL analytics for GPA and enrollment stats; compared relational vs. document-oriented data modeling.
- Weather Forecasting Web App** *HTML, CSS, JavaScript*
- Built a responsive web application with REST API integration for real-time weather data rendering.

RELEVANT COURSEWORK

DSA • Operating Systems • DBMS • Computer Organization • Compiler Design • Cryptography

CERTIFICATIONS

Microsoft: Foundations of AI & Machine Learning — Coursera	May 2026
Google: Foundations of Cybersecurity & Data Science — Coursera	May 2026
Google Cloud: Associate Cloud Engineer Fundamentals — Coursera	May 2026
Oracle Academy: Database Foundations & Design	Nov 2025
NPTEL / IIT Madras: Design & Analysis of Algorithms (Elite, 66%)	Jan–Mar 2026

ACHIEVEMENTS & ACTIVITIES

- Participated in AtomQuest Hackathon 2026 by Atomberg, focused on workflow automation and goal-tracking systems.
- Participated in Goldman Sachs India Hackathon 2026, solving software engineering and algorithmic challenges.
